Summer Report

Lead Evaluator | Russell 'Coach V' Vanlandingham
Former 20 Year College Recruiting Coordinator

6'6 Stretch 4 2026 Braylon Peters | CC Flour Bluff

Braylon Needs the Right System, But No Question He is a Scholarship Level Stretch 4 Whose Stock Will Continue To Rise Heading Into His Senior Season. Teams that Run a Lot of Ball Screen Action With the Trail 4 and Recruit SF's That Can Space The Floor Get Braylon On Your List of Prospects to Watch. Deceptive Athlete, Has a Guard Skill Set and Tough Matchup In the HP for Teams With His Ability To Knock Down Shots and Take Bigger Forwards off the Bounce. Scholarship Level SF That Will Continue to Move up College Coaches Boards Heading Into His Sr Season.

Projected Levels: NAIA / NCAA D2

6'7 Playmaker / Wing 2026 Bryant Herring | Brentwood Christian 512-466-9182

Bryant Is Set to Have a Breakthrough Sr Season at Brentwood Christian. Has a College Ready Body, Shoots the 3 at a high %, and at 6'7 Can Get In the Paint and Shoot Over the Top of the D. Must Continue To Rebound at a Higher Level and Showcase That He Can Defend a College Level 3/4 But Nonetheless He's a Scholarship Level Talent that Embraces Coaching/Correction So I Predict He Will Elevate His Game In Both Areas and Secure An Offer at one of the Higher Levels When It's All Said and Done. Great FIT in a 5 Out Motion System and HC Man to Man Defensive Team That Teaches Pack Line Principles.

Projected Levels: D1 JUCO / NCAA D2+

Combo Guard 2026 Maurice Eddie | Cibolo Steele 726-214-9184

Talk About a Kid Whose Game Has Grown Over the Past Year and Your Talking About Maurice 'Mo' Eddie. Set the Tone for a Great Showing By Winning The Skills Challenge Going Away, Than Took His Game to Another Level During The Defensive Portion of the Camp. He's Shooting the Ball at a Much Higher Level With A Lot More Confidence Indicating He's Putting In The Work It Takes When No One is Watching. However, What Stood Out The Most Since The First Camp He Attended 2 Years Ago Is His Progress on Defense. He Is More Locked In on the Defensive End, Applies Consistent Ball Pressure Without Getting Beat off the Dribble, and Stays Engaged Off the Ball. It's Only a Matter of Time Before He Starts To Gain More Interest. College Ready Combo Worth a Close Look Heading Into his Sr Season

Projected Levels: JUCO / NAIA+ (Potentially Higher If Steele Makes Another Deep Playoff Run)

6'1 Combo Guard 2026 Paul Gumbert-Mendoza | Wimberley HS

Broken Record With Paul Gumbert-Mendoza, So I Will Keep His Evaluation Brief! Scholarship Level Combo, MM/HM Level Competitor, Makes Winning Plays On Both Ends of the Floor, and is Coming off A Junior Season Where He Carried His Team To The Regional Final Earning 1st Team All-State and District MVP Winning The District Championships. Winners are Winners and I've Heard Some Coaches Question his On Ball D, or His Size as a 2 Guard, But They Are Missing The Boat On What He Brings Night In and Night Out. You Will Not Be Able To Assess That In The 1 on 1 Play That Often Trumps Team Play In The Select Circuit, But Watch Game Film With His HS Team and You Will See What He Brings to a Table.

Projected Levels: NAIA+ / NCAA D2

5'10 Point Guard 2026 Jzachery Deleon | Harlan HS

Undersized 'WHO CARES', Everyone In Attendance at the SA Camp from the Spectators on Site, Opposing Players, Officials & Coaches Loved What Jzachery Stands For And How Hard He Competed from The Opening Tap! It Makes No Sense Why More Players Serious About Playing College Basketball Don't Do The Things Jzachery Does Consistently on The Floor Which Are He Brings 1. Tremendous Effort 2. Competes On Both Ends With The Intent to 'WIN' 3. Communicates Consistently On the Court Which is Contagious and Makes Everyone Play Harder. No Question In My Mind That This Kid Will Work His Way Into an Offer and Be a Great Piece To The Puzzle for a College Program Next Year.

Projected Levels: NAIA / NCAA D2 (Great FIT in an Up Tempo System)

6'3 2026 Playmaker Chris Howell | Cibolo Steele HS

Chris Will Fly Under The Radar Playing On a Loaded Steele Team With a Lot of Offensive Talent. I Encourage Him To Star In His Role and Be an Elite Defender And Rebounder Every Single Second He Touches The Court. He's The Length, Versatility, Athleticism and Motor To be Great at Both and That Will Be His Ticket To Playing Beyond HS. Don't Get Me Wrong He Does a Great Job Finishing Plays at the Rim In Transition and Playing Through Contact, But his College Ready Strengths is His Ability To Defend the 1-3 and How Hard He Competes On The Glass. Star In Those Areas Chris And You Will Not Go Unnoticed...

Projected Levels: D3/D2 JUCO / NCAA D3+

6'3 Combo Guard 2026 Paul Coulombe | Canyon HS 830-302-9204

Paul Took advantage of What Uncommon Exposure Offers Every Single Camper, and that is a Fair Shot To Finish on 'Top' and Gain Exposure! He Did Just that in the SA Camp and Won The Day By Making a Lot of Winning Plays Without the Ball In His Hands, and Playing With Tremendous Effort Throughout. Solid Catch and Shoot 2 Guard, Skilled Passer Off The Ball, and Makes The Right Play Over The Highlight Play. Very Efficient Offensive Player That Makes a lot of Winning Plays on the Defensive End and Understands His Strengths.

Projected Levels: High Academic NCAA D3+

6'2 Shooting Guard 2026 Tacoma Ames | Buda Hays HS 512-214-7113

Tacoma is a Big Guard Who Shoots It at a High %, Capable of Putting It On The Floor When Run off the 3pt Line, and Has The Size To Shoot Over The Top of the D In Catch and Shoot Situations Which Translates To The College Level. There is a Lot of Local Talent That Are College Ready Offensive Players/Shooters Like Tacoma So If He Elevates Other Facets Of His Game Heading Into His Sr Year, Then He Will Truly Start to Stand Out Amongst His Peers. College Level Shooter To Keep On Your Radar This Year and Track His Progress.

Projected Levels: NCAA D3+ / NAIA

6'1 Point Guard 2026 Carter Cash Chism | Mount Pleasant HS 903-466-2147

Possibly The Top Prospect at the SA Tourney Was PG Carter Chism. After The 2nd Game When I Learned He is the Son of a Coach, It Made More Sense as You Can Tell This Kid Grew Up With a Ball In His Hands and The Keys to the Gym! Carter Makes the Right Play, Reads the D and Finds The Right Man In Scoring Position Not Just the First Open Man (Big Difference) On Top of That, I Don't Recall One Turnover Over The Course of the Weekend. What Impressed me Most Was His Demeanor, It Never Changed and That's What You Want In a Leader. Makes Everyone Around Him Confident When Your PG Plays Each Possession and Not the Scoreboard. Has a Quick First Step, Plays With Great Pace, Creates Separation On His Shot, And Tough Matchup In Ball Screen Action, With His Ability To Shoot, Pass, Or Drive It. D1 ALERT

Projected Levels: LM/MM D1

6'5 Playmaker 2026 Mario Wooden | IFN (TX)

Talk About The Sky's The Limit, and You're Talking About Mario from IFN (TX) Has The Perfect Frame and Motor To Go Along With It, To Impact a Game Without Taking One Shot!!! Not To Say This Kid Can't Score, But His Ticket to the Highest Potential Offer Is On the Glass and On Defense. Capable of Guarding the 1-4 Spots, Pursued Boards Leading To Dozens of 2nd Shot Opportunities and Has Everything You Need to Be an Elite Defender. Mario Can Flat Out Guard and Guard Multiple Positions Which Will Not Go Unnoticed This Summer. Although I've Projected Him D2+/LM That Can Certainly Change When And If Mario Realizes His Ticket Is Being a MM/HM Rebounder and Defender

Projected Levels: NCAA D2+ / LM D1

6'6 Playmaker 2026 Jesse Mikus | SB Elite

Not Sure What Position Jesse Truly Is at the Next Level, But I'm Sure That He Can Flat Out Play and Will End Up With Scholarship Level Offers. Players are Players and Jesse is a Player! Skilled 6 '6 ¾ That Can Play The Wing Position Or Move To the 4 and and Makes Plays out of Ball Screen Action. Jesse Stays Shot Ready, Moves Well Without the Ball To Get to His Spots, and has a Quick Release from Beyond the Arc Knocking Down a High % of 3pt Shots in Catch and Shoot Situations. However, What Moved Him Into the Top 10 Standouts Was How Hard He Competed Consistently Throughout the Tournament. When You Have Scholarship Level Skill to Go Along With the 'WILL' To Win It Only Enhances Your Recruitment and Level of Recruitment. Made Me a Fan and Moved Into the Top 10 Players at the Tournament by Bringing Both to the Table.

Projected Levels: NAIA + / NCAA D2

6'4 Wing 2026 Jamison Thrower | IFN (TX)

Versatile Wing , D1 Level Athlete, and at 6 '4 with his Playmaking Ability and Size Jamison is a Tough Matchup In Transition When He's Attacking Downhill. Capable of knocking Down the Perimeter Shot, but is at his Best in the HC Attacking the Paint and Finishing Above the Rim or Drawing Fouls. Uses his Body Well To Shield off Defenders and Had Several Dunks In Traffic Going Right Through Contact! D1 Level Athlete & Playmaker that is a Consistent Jump Shot Away From Moving Onto D1 Boards by the End of the Summer. Would be a Great FIT In Programs that Extend Their Man to Man Defensive Pressure and Look to Get out and Run Offensively.

Projected Levels: D1 JUCO / NCAA D2+

6'6 Small Forward 2026 Malahki Morris | TX Conquerors NY2LA

Another Prospect That I Was Only Able to Evaluate In One Game Due to Him Not Being In Attendance Day One. Regardless, One Game Was Enough for Malahki To Catch My Attention With His Energy, Motor and Competitive Mindset He Showed Throughout the Game. It's One Thing to Look the Part Which Can Get College Coaches Attention, But To Gain Genuine Interest You Can't Look Good In Warm-Ups, You Got To Be Able To Play! Malahki Can Play, Defends the 2-4 Positions, Found Ways To Score Without Having His # Called Offensively, And Made a lot of Winning Plays on Both Ends that Don't Show Up On Stat Sheets. Really Love This Kid's Upside, Approach & Attitude To Competing And Impacting The Game Without The Ball In His Hands.

Projected Levels: D1 JUCO / NCAA D2

6'2 Combo Guard 2026 Gerald O'Neal | Judson HS 2026 210-310-5486

Gerald's Coming off and Injury In the Spring That Has Him Flying Under the Radar Heading Into the Heart of the Summer. That Won't Last Long as This Kid Has a Motor That Never Stops, He Has a Quick First Step To Get By The Initial Defender and Has the Court Savvy When Drawing Help To Make The Right Play. It's Been a While Since I've Seen Gerald But He Left an Impression on Me With His Consistent Play and Effort In All 3 Games. Strong Physical Combo That Guards the 1-3 on D, Scores It in a Variety of Ways, And Stayed Engaged In Help D Situations that Led to TEAM Stops. Lots of Players Wait Until Their Man Has The Ball to Defend, But College Level 2-Way Players Defend The Entire Possession Both On and Off Ball. Gerald Does Just That...

Projected Levels: NAIA + / NCAA D2

6'2 Point Guard 2026 Damien Ramirez | SA Wagner 2026 210-500-3018

I've Evaluated Damien In a Few Uncommon Exposure 2024 Camps, and You Could See He Had College Level PG Written All Over Him. Fast Forward to the SA SWIPA Tournament and That Assessment Hasn't Changed. Physical Guard with a College Ready Body, Uses Angles On Offense To Get To His Spots, and Stays In Attack Mode. Too Big and Too Strong for PG's to Defend When He Attacks Off the Bounce, Has Excellent Court Vision When Drawing 2nd and 3rd Line Defenders, and Made a Lot of Plays Without Making a Lot of Mistakes from the PG Position. He's Set to Have a Big Summer and Will Head Into His Senior Season on a Lot More College Coaches Radars

Projected Levels: D1 JUCO / NCAA D2

6'3 Playmaker Sam Cecava | 2026 Calallan HS 361-429-8293

Sam Set the Tone for the Day by Finishing in the Finals in the Skills Challenge, Winning the 1 on 1 'Will' Competition then Led his Team to the Defensive Stopt 2-Way Player Title. In Session I of UCExposure Camps that is a Tough Hat Trick To Pull Off but Sam Took Advantage of the Layout and Opportunity and WON the Day. On Top of Showcasing the Will / Toughness It Takes to Play College, In Session II You Can See Sam Is Also Highly Skilled and Versatile on the Offensive End as Well. District 31-4A MVP and Early Lead on a 2026 D2's Should Add To Their Recruits Watch List. Big Upside With a High Motor Whose Stock Will Continue to Rise This Summer.

Projected Levels: NAIA / NCAA D2

6'0 Combo Guard Jeremiah Moynihan | 2026 CC Veterans Memorial 832-530-5012

Jeremiah was a Late Move In at CC Veterans Memorial This Past Year (#1 Ranked 5A Team In 2024-2025 Season) He Did More Than Adjust to His New Environment, He Excelled, Set the Tone for the Defense, and Was a Fixture In the Starting Lineup. CCVM Was Loaded with College Level Talent / Scorers So Jeremiah Starred In His Role and Stayed On the Floor by Being One of the Top On Ball Defenders In District on One of the Top Defensive Teams In The State of TX When You Look at PPG Allowed & Opposing Teams FG %! 2-Way Player That's Really Good Getting Downhill, Finishes In Traffic or Draws Fouls & Does a Great Job of Reading Help and Making the Right Play/Pass When Getting In the Paint.

Projected Levels: D1 JUCO / NCAA D2

5'10 Point Guard Xander Parra | 2026 SA Cornerstone 210-605-0830

Xander Doesn't Pass the Eye Test Walking in the Door, but he Passes the Flat Out Can Play Test! One of 2 Players Listed By Every Coach on Staff as a Next Level Guard. Xander is a Consistent 3pt Shot Away from Moving Onto More College Boards, but Has Time on his Side and the Shot Mechanics are There To Elevate His Game. Brings all the Leadership Traits to the Floor You Look for In Lead Guards, Super Quick in the Open Court, and Uses His Body Well to Finish Plays in the Paint. Newcomer of the Year on a 30 Win SA Cornerstone Team, Competes on D, and Plays with Confidence When He Has the Ball In His Hands.

Projected Levels: NCAA D3+ / NAIA

6'1 Combo Guard Jamail Garland | 2026 Cibolo Steele 830-309-1110

Talk About Underrated and You Are Talking About Jamail Garland. Strong Built Combo with a College Ready Body, Big Time Playmaker off the Bounce, and the Physicality it Takes to Finish Through Contact. In Fact, as the Day Went On It Looked Like Jamail Not Only Attacked the Paint but Looked to Create Contact When He Got There. Being his First Season on a Loaded Antonian Team May Have Him Flying Under the Radar, but It's Only a Matter of Time Before a Lot More Coaches Know This Kid's Name! Too Tough, Too Talented, and Too Physical To Not Rise In the Ranks This Summer. Scholarship Level Combo Set to Have a Big Summer.

Projected Levels: D1 JUCO / NCAA D2

6'5 Playmaker Carson Cox | 2026 New Braunfels HS **830-309-1110**

Carson Was My Personal Favorite of all the 2026s at the CTX Camp. He's a Perimeter Shot Away from Drawing Scholarship Level Offers! Tough, Hard Nosed Slasher Whose Motor Never Stops, Does a Great Job of Creating and Playing Through Contact When Attacking the Paint and Competed on the Defensive End as Well. Just Has the Look of a Player that Will Play His Way Onto Scholarship Level Boards This Summer. Keep Growing Your Game This Summer When No One is Watching Carson and Your Recruitment Will Take Care of Itself.

Projected Levels: High Academic D2 / Ivy League Wing

6'4 Playmaker / Small Forward Jaiden Riley | 2026 Marion HS **210-845-8061**

Jaiden Had a Solid Showing at the CTX Camp finishing on 'Top' and Making a Lot of Winning Plays on Both Ends That Don't Always Show Up on Stat Sheets. After doing Some Research, I'm not Surprised he is an Elite Football Player As Well with how Physical he Played & Competed Throughout the Camp. High Motor Tweener That Pursues Rebounds, Gets 50/50 Balls in the Paint By Out Toughed Bigger Forwards for Boards, and Does a Good Job of Playing to His Strengths and Knocking Down High % Shots. Only 2026 So He Has Time To Grow His Overall Perimeter Skill Set And Move Onto College Coaches Boards, but brings the Size, Strength & Mindset it Takes to Play Beyond HS. Track His Progress Jaiden is Set to Have a Breakthrough Senior Season at Marion HS.

Projected Level: NCAA D3+

6'8 Forward Hagen Hurst | 2026 SA O'Connor **210-316-8817**

Hagen is a Big Man That Plays BIG!!! He Has No Desire to Prove He Had Guard Skills, and That's a Great Thing. He Looks for Contact, Pins Hard In the Paint and Engages Down Low, And Out Battles Defenders so He Can Catch It In His Spots and Finish or Get Fouled. Has Good Hands, Takes His Time on the Catch, Reads the D, and is a Skilled Passer When Double Teamed. Needs the Right FIT, But After Evaluating Hagen at the Final Four Camp Against Scholarship Level Seniors He Sold Me. Left His Mark and Dominated The Paint Again for the 2nd Straight Camp, and Love His Physicality In the Paint. D2's Should Be All Over Big Hagen, as I Predict He Will Play His Way Onto D1 Boards by the End of the Summer

Projected Levels: NCAA D2+ / LM D1

6'5 Playmaker Malachi Hilby | 2026 Hutto HS **310-214-8456**

Has all the Tools You Look For at the Next Level to Go Along With a Motor! Malachi Did a Great Job of Staying Engaged Throughout, Communicated, Played with Contagious Energy and Has a High Ceiling with Time on His Side To Elevate His Overall Perimeter Game and Skill Set. Long Playmaker that Can Guard Multiple Positions, Active Rebounder and Does a Good Job off the Ball Defensively at Making Plays and Altering Shots when He's in Help D. 2 College Coaches On Staff at the Final Four Stated That Kid Is One Summer Away from Blowing Up With His 'Motor'. Focus On Growing Your Game Malachi and Take That Hard Hat Mentality to Summer Tourneys and Your Stock Will Rise

Projected Levels: D2 JUCO / NAIA

6'2 2 Guard Charlie Church | 2026 The Village School **630-991-6334**

Charlie Has Gone from a High Academic Specialist (D3 Level) to a Player that Can Start to Draw Genuine Interest from NAIA / D2 Level Programs This Summer. Scholarship Level Shooter That Moves Well Without the Ball, Has a Quick Release, and Gets to his Spots and Knocks Down 44% of his Shots from Beyond the Arc. Had a Breakthrough Jr Season and was a Key to the Village School Taken Home the District Title. If You Shoot a Lot of 3's Charlie is a 2026 to Add to Your List of Recruits To Watch This Summer.

Projected Levels: NAIA / NCAA D2 (High Academic Programs That Shoot a Lot of 3's Are a Great FIT)

6'4 2 Guard Travis Randle | 2026 Marion HS **210-884-9333**

Small Town Sleeper that Had a Great Showing in the Central TX Camp. Set the Tone for the Day by Winning The Skills Challenge Going Away. Has Really Good Shot Mechanics and a Quick Release from Beyond the Arc. At 6'4 When You Can Knock Down Shots Off the Move, You Have a Real Shot To 'Gain Interest' This Summer and Move Onto College Coaches Boards. I Predict Travis Will Do Just That as he has the length, motor and can Shoot over the Top of the D at 6'4! Intriguing 2 Guard Flying Under The Radar To Get on Your List of Recruits to Watch This Summer

Projected Levels: NCAA D3+ / NAIA

6'5 Playmaker Jayden Cherry | 2026 Cibolo Steele

Jayden Was a Big Key in The Deep Playoff Run Steele Had This Past Year Falling One Game Short Losing to #1 Ranked SA Brennan in the Regional Final. Future Looks Bright With 4 College Level Juniors Starting This Past Year at Steele. Jayden is one of the 4 and Arguably the Most Athletic 2026 With the Highest Ceiling Moving Forward if he Continues to Put In the Work It Takes This Summer to Take His Game to the Next Level. Needs To Develop His Overall Perimeter Skill Set / Shot But Does a Great Job Making Plays off the Bounce and Active on the Glass. D1 Level Athlete that Finishes Above the Rim in Transition, Versatile Defender that can Guard the 1-4 Spots and Big Upside. Get Him On Your Radar This Summer He's One to Watch Heading Into his Sr Season

Projected Levels: D1 JUCO / NCAA D2

5'10 Point Guard Amare Guerra | 2026 Antonian Prep 210-276-1569

I'm Not Going to Mention the Obvious Accolades / Honors This Kid Has Heading Into the Summer, I Will State If You Value 'TOUGHNESS' there aren't many out there that Step Between the Lines that will Out Tough Amare! 2-Way Player that Not Only Has Over 2000 Points with another Full Season to Go, but finished in the Top #5 in the State of TX for SPG (5.6 SPG-Motor Stat) (Motor Stat) My Camps Are Designed to Assess 'Will' & 'Skill' and Amare Has Both! Not Sure What Select Team Amare Is Playing On This Summer But Find Out and Get On This Kid Early

Projected Levels: Top Ranked NAIA / NCAA D2+

6'4 2 Guard Logan Gonzalez | 2026 Cibolo Steele 210-980-9247

Logan Did Everything this Season I Projected 2 Years Ago. Picked Up Several D2 Offers, Broke the Single Season 3pt Record, Earned 1st Team All-Region, Shot 43% from Beyond the Arc and Rebounds It at an Elite Level for a 2 Guard (7.9 RPG) He's Playing On Both Ends at a High Level and with his Work Ethic I can certainly see Logan Moving Onto D1 Boards By the End of the Summer. His Game Continues to Grow In All Facets and He's Already a D1 Level Shooter with Size

Projected Levels: NCAA D2+ / LM D1

6'0 Point Guard DJ Jordan | 2026 SA Veterans Memorial 210-860-1007

DJ Has Done a Great Job of Going from Piece of the Puzzle last Year on a 34-1 5A State Runner-Up Team, to the Key Guard on this Year's Team as a Junior. Had a Great Fall Leading SA Vets in SPG, APG, and Improved His Perimeter Shot which opens up more driving lanes. Sets the Tone for Vets this Year on D and has the ball in his Hands 75% on Offense which is a Testament to how much his Game has Grown as a Leader. Tough 2-Way Player with 2 Years to Continue to Improve. Early Lead on a College Level PG whose Stock will continue to Rise. Get DJ on Your List of 2026's to Track as their is No Question he is a Next Level Lead Guard whose best ball is in front of him.

Projected Levels: NAIA / NCAA D2

6'5 Forward Beres Henry | 2026 Killeen Shoemaker

Power Forward that is a Load Down Low, and When He Catches it 12 Feet Out he does a great job of taking bigger forwards off the Bounce and Finishing at a high % in the Paint. Really Uses his Body Well, Engages Hard on the Block to Catch, is Close to the Basket, and is a Skilled Passer out of Double Teams. Has a really good feel for the Game, takes what the Defense Gives Him, and plays with good pace so looks like he is always under control in Traffic. Big Bodied Forward that must get in and stay in Condition to Play at his Highest Level, but during 3 to 4 Minute Stretches he is Virtually Unstoppable 12 feet and In and Effective on D as Well.

Projected Levels: D1 JUCO / NCAA D2

X:beresh2

6'4 Playmaker/SF Lance Johnson | 2026 SA Wagner 503-941-8548

Strong Built Tweener That Plays To His Strengths, Does all the Dirty Work, and Is Plays Bigger Than 6'4 In the Paint and On the Glass! A'Darian Has a High Motor and Consistently Competes on the Defensive End. He Made Several Winning Plays In Help Defense Situations at the Sr Showcase, and No Question With His Strength, Motor and Mindset and 2 Years to Grow His Game Lance Will Work His Way Into a College Offer. College Ready Body with a Big Upside, And Brings His Lunch Pail To The Court.

Projected Levels: JUCO / NAIA +

6'3 Playmaker Quentin Proctor | 2026 Samuel Clemens HS 210-842-8134

Quentin Went from a Piece to the Puzzle in the First Semester, to a Key Guy Down the Stretch at Clemens and is Heading into the Summer Under the Radar. Finished on 'Top' at 2 Fall Camps by Out Toughing, Out Competing, and Out Playing Several Seniors at Those Events that Have Accepted Offers. I Evaluate College Level 'Toughness' and Mentality and Q has both. Needs to Continue to Improve His Perimeter Shot and Skill Set but the Foundation Is There, The Toughness Is Consistent and He Makes a Lot of Winning Plays Without the Ball In His Hands On Both Ends of the Court. Love this Kid's Potential and Upside so a Solid Lead to Get On Your Radar This Summer and Track His Progress

Projected Levels: NCAA D3+ / NAIA

6'5 Small Forward 2026 William Randle | Cy Lakes 832-855-9085

William Is a Sleeper Whose Stock Will Continue To Rise Heading Into his Sr Season. Love this kid's Motor and Competitive Mindset, and After Getting a More In-Depth Evaluation in the DFW Camp You Can See The Foundation is There On the Offensive End To Put Up Big Numbers his Sr Season. He's already a Scholarship Level Rebounder and Defender that Does a Great Job Catching It In His Spots Down Low and Finishing In the Paint. He Embraces Coaching / Instruction and With Time on His Side and the Physical Tools To Play at the Higher Levels, I can certainly see Will Ending Up With Several Options at the Scholarship Levels. Keep Making Your Ticket to the Next Level Your "Mindset" and The Rest Takes Care of Itself...

Projected Levels: D1 JUCO / NCAA D2

6'3 2 Guard 2026 Elijah Smothers | Lubbock Monterey 806-853-1219

I Knew Elijah was a Knock Down 3pt Shooter When I Evaluated Him in the SWIPA Tourney, but What I Didn't Know Is That He Has The 'Will' It Takes to Make The Transition To College. Elijah Started The Day Winning The Skills Challenge, and Ended The Camp Leading His Team to the Top Prospect Title! The Uncommon Approach of Evaluating Both Talent & Toughness Has Led To Great Results for Players Like Elijah Because Without 'Toughness' Eventually Your Recruitment and Level of Recruitment Will Begin To Dissipate. On The Other Hand, Elijah Won Me and Every Coach Over Not By Hitting Shots (We Already Knew That) But How He Competed, Communicated, and Found Ways To Help His Team WIN Without the Ball In His Hands. NAIA / D2 Programs Should Already Be On This Kid, I Project He Will Turn Interest To An Offer When It's All Said and Done at one of those Levels!

Projected Levels: NAIA / NCAA D2

6'4 Combo Guard 2026 Grayson Eichinger | Colleyville Heritage

214-608-2161

Talk About a Kid Whose Game Has Grown In the Last Year and Your Talking Grayson. Grayson Finished on 'Top' in DFW in 2024, Went On To Become a Key Piece on a Colleyville Heritage Team That Made It To the 6A Regional Finals Falling One Game Short, and Finished on 'Top' Again in the 2025 DFW Camp. Since Last Year He's Playing a lot More Aggressive, Has Physically Gotten Stronger. Finishes Through Contact at a Higher Level, and Is More Active on the Glass. Last Year You Could See The Offensive Skill Set to Score It But Had to Have the Ball To Impact The Game, Fast Forward One Year Later and Grayson is Now Making a Lot More Winning Plays Without The Ball In His Hands To Go Along With Being a Scholarship Level Scorer. Coming off a Breakthrough Year, He Has Put Himself In Position To Play His Way Into Scholarship Level Offers His Senior Season.

Projected Levels: NAIA / NCAA D2

6'0 Point Guard 2026 Tre Olatunbosun | Cy Fair

713-505-0700

Tre is a College Ready Leader That Does a Great Job of Staying Engaged In the Possession, Communicates Well Which Makes Teams Better, and Plays with a Healthy Chip On His Shoulder. Started The Camp Communicating and Standing Out to The Langston AC for the Right Reasons, But Took it Up a Notch in a Defensive Segment of the Camp That Puts Good Offensive Players on an Island to See if They Can Guard. Tre Passed The Test Winning The Position Split Competition Showcasing He's a 2-Way Player That Can Run a Team While Locking Down The Opposing Team's Best Guard. Tre Will Be In Control of His Own Recruitment as He Returns to Cy Fair and the Leader Not Just the Lead Guard This Upcoming Season. Add Him to Your 2026 PG Watch List, He's Set To Rise In the Ranks His Sr Season

Projected Levels: JUCO / NAIA+ (Potentially Higher If He Can Lead Cy Fair on a Deep Playoff Run)

6'4 Playmaker 2026 Devon Vienneau | Onalaska HS

713-922-3988

Another Player That Has Elevated His Game In Every Facet Since The 2024 Camp is Devon Vienneau. When Devon Finished on 'Top' Last Year You Could See He Had a High Ceiling and Physical Tools That are Hard To Teach. Coming off a Big Jr Season Where He Earned All-Region, District Offensive MVP, and Was Selected 1st Team All-Tourney in the State Tournament. Heading Into His Sr Season, Devon Has Gotten Bigger, Stronger, and is a D1 Level Athlete with a College Ready Body. Can Score It at all 3 Levels, Plays With Great Pace on the Offensive End, And Gets to His Spots and Knocks Down a High % of Shots. Moving Forward, If Devon Can Stay Engaged for Longer Stretches on D and On the Glass, He Will Move Onto D1 Boards and his Stock will Rise and Rise Quickly. Keep Growing Your Game Devon, Your Ceiling is High And You're Recruitment Is Picking Up.

Projected Levels: NCAA D2+ / LM D1

6'6 Forward 2026 Ray Glancy | Gainesville HS

940-736-0367

Ray is a Physical Tough Tweener That Plays Bigger Than 6'6, Pins Hard In the Paint, And Finishes Through Contact When Attacking The Basket. As The Camp Got Tougher, Ray Got Tougher and Played To His Strengths Which Is Why He Stood Out to Coaches on Staff. Some Big Man are So Determined To Showcase They Can Shoot 3's That They Not Only Get Overlooked, They Get Exposed And Let Defenders Off the Hook by Hanging Out on the Perimeter. Not Big Ray, He Battled Hard For Position from Start To Finish, Has Good Hands, Soft Touch and Got Great Looks By Catching Close To the Basket. Knocked Down Timely 3's in the 4 on 4 and 5 on 5 Games With Good Shot Mechanics, but Didn't Settle For Perimeter Shots He Hit Shots When Left Open But Stayed and Made Plays In The Paint 90% of the Camp.

Projected Levels: NCAA D3+ / NAIA

5'11 Combo Guard 2026 Caden Veazey | Fossil Ridge HS

Caden is a Scoring Combo That is at his Best Playing Off the Ball Excelling In Catch and Shoot Situations. Does a Good Job of Moving Without the Ball In His Hands, and is Shot Ready On the Catch with a Quick Release Allowing Him To Get His Shot off against Bigger Guards. More Than Capable of Taking It Off The Bounce When Run off the Line, but His College Ready Strength is Shooting the Ball and is a Tough Matchup with his Ability to Make Plays off the Bounce as well. 2 x Academic All-District to Go Along with Being Selected All-District This Past Year Puts Him Position To Start Gaining Genuine Interest from High Academic Small College Programs. High Academic D3 Programs Should Already Be Recruiting Caden & I Can See Him Gaining Interest from NAIA Programs That Shoot a Lot of 3's If He Puts Up Big #His Senior Season

Projected Levels: NCAA D3+ / NAIA

6'0 Point Guard 2026 Jamal Davis | Gainesville HS

940-443-4950

Jamal is a Tough Minded PG That Sets the Tone for the Defense With His Ball Pressure and Is at His Best Getting Downhill and Making Plays In the Paint. Has a Score 1st Mentality On Offense So More of a Combo at the Next Level, but nonetheless the Ability is there to Play Beyond HS. The Key for Both Him and Ray is Making a Leap In Leading Their Team Into the Playoffs as Senior Leaders Not Leading Scorers. Quick Open Court Combo That Can Play the 1 or 2, Creates Plays off the Bounce, and Does a Good Job Pressuring the Ball Without Getting Beat off the Dribble.

Projected Levels: D3/D2 JUCO / NCAA D3+

6'6 Small Forward 2026 Mikiyas Abiy | Wylie East HS 201-732-0750

Long Athletic 3/4 With the Versatility to Guard Multiple Positions and Play Inside-Out on Offense. Needs to Continue To Work On His Overall Offensive Game, But Has the Size, Length and Athleticism It Takes to Play Beyond HS. Like Most Players That Attend UC Camps for the First Time, They Truly Don't Understand What College Coaches Look For and What They Do Best. That's the Case With Mikiyas as He Has The Physical Ability and Length To Be An Elite Defender and Rebound It at a Much Higher Level. Right Now He Settled Too Much For Outside Shots, But Soaked Up Coaching, Took Instruction Well and Got Better as the Day Went On, and Finished Strong Looking His Best When He Was Getting In the Mix on the Glass and Finishing Plays at the Rim.

Projected Levels: D2 JUCO / NCAA D3+

6'2 Combo Guard 2026 DJ Moore | Killeen Shoemaker 254-345-6569

DJ holds the keys to his Car heading Into the Season! Has a College Ready Body, Scores it at all 3 Levels, and Could Play His Way Onto D1 Boards if he gets off to a Great Start and Consistently Produces on Both Ends. Listed by all the College Coaches on Staff In the West TX Camp as the Prospect with the Most Physical Talent & Highest Ceiling. However, DJ's Recruitment and Level of Recruitment will Depend on How Much He Impacts Games without the Ball in his Hands this Year. No doubt a D1 Level Talent that will have the Ball in His Hands and Opportunity to Play Way Into a D1 Offer! Stay Locked In DJ for Longer Stretches and Lead Shoemaker Not Just In Scoring But In All Facets of the Game And Your Recruitment Will Take Care of Itself

Projected Levels: NCAA D2+ / LM D1

6'1 Combo Guard 2026 Myles Osborne | Abilene High 325-518-8984

Strong Versatile Playmaker That Can Guard Multiple Positions on D & Play Multiple Positions on the Offensive End of the Floor. Was at his Best When He Was in Attack Mode Getting Downhill and Making Plays in the Paint. Has the Physical Strength and Instincts to be an Elite Rebounder from the Guard Position and That Will Not Only Elevate His Game but Increase His Level of Interest. When He Pursued Rebounds He Looked Like a Scholarship Level Wing With the Ability To Finish Through Contact After Securing Offensive Boards. He Has Good Shot Mechanics on his Perimeter 3 and Knocked Down Timely 3's to keep the Defensive Honest & Open Up Driving Lanes. Just Stay In Attack Mode Myles and Stay Consistent On The Glass And You Will Draw Scholarship Level Interest Heading Into the Spring

Projected Levels: NCAA D3+ / NAIA

Tookie Just Knows How To Play The Game. Has a High Basketball IQ, Scores It In a Variety of Ways And Plays with a Healthy Chip and Confidence that You Want in a Point Guard. As the Camp Got Tougher, Tookie Showed Me Another Level Defensively That was hard to truly Assess in the Select Tourneys I've Evaluated him in this Summer. Don't Leave That In Abilene Tookie, Take It Back to Lubbock and Be the Best on Both Sides of the Ball and You Will Without a Doubt Head Into the Spring With Scholarship Level Options. Under Ranked And Underrated College Ready PG Set To Do Big Things This Year. Keep Growing Your Game As Your Best is Yet To Come...

Projected Levels: NAIA+ / NCAA D2

6'2 Playmaker 2026 Ja'dyn Loggins | Belton HS 254-226-4739

Listed as the 'Top Prospect' In the WTX Camp w/ the Highest Motor and Possibly the Best Defender in the Gym on Sunday. Defense is 100% Mindset and Ja'dyn Has the Speed to go along with the 'Mindset' it takes to Play with Sustained Effort on the Defensive End. Would be a Great Fit in a Program that Looks to Turn Defense Into Offense, Extends their Pressure and Pushes It In Transition. The Uncommon Approach Either Showcases Traits or Exposes Traits Outside of Talent That MATTER When It Comes to Gaining Exposure. Ja'dyn Stood Out for the Right Reasons, Attacked The Day, Defended at a Scholarship Level, and Competed from Start to Finish to End Up on 'Top' In The WTX Camp. Keep Working On Your Perimeter Shot When No One Is Watching Ja'dyn and Keep Being Elite at Your Ticket (Defense) To the Next Level And Interest will Turn to an Offer When It's All Said and Done!

Projected Levels: JUCO / NAIA (Programs That Extend There Defensive Pressure Get Ja'dyn On Your Radar)

6'6 Small Forward 2026 Devin Lineberger | Stony Point HS 512-947-3219

High Academic, High Character, High IQ Small Forward That I Can See Ending Up With Several Ivy League Type Options. Extremely Coachable Player That is Returning To Stony Point as the Team Captain, And Brings All the Intangibles to a Roster That You Look for These Days When Researching HS Players Ability to Make The Transition. Has Great Hands, Soft Touch, Rebounds Well, and When He Was Pinning Hard Down Low He Was a Much Tougher Matchup! Be Nice Off the Court Big Devin, and Be The 'MAN' on the Glass and In The Paint And Your Recruitment Will Increase Quickly. Regardless, Whatever Program Gets Devin will Be Getting a Player That Will Get Better Each Year, Improve Your Team Culture Immediately, and Do What You Need Him To Do To Win Games. With Today's Problems, Devin is a Breath of Fresh Air...

Projected Levels: High Academic Ivy League Type Prospect (Majoring In Aerospace Engineering)

6'7 Forward 2026 Jesse Villebrun | Clyde HS **520-313-2893**

Intriguing Big Man and Selected Invite after a Credible Resource Recommended Jesse as a Local WTX Talent Getting Overlooked. I'm Glad Jesse Registered for the Camp as there is No Doubt This Kid Can Play Small College Ball as a Stretch 4. Has a Solid Skill Set out of the HP, Made Several Winning Plays Off the Ball Defensively By Rotating and Altering or Blocking Shots In Help D Situations, and Does a Good Job on the Glass at Getting 50/50 Balls and 2nd Shots for his Team. Small Town-Big Man Worth Getting On Your List of Recruits To Watch In 2025-2026. If You Set a Lot of Ball Screens And Run Some High Low Action In the HC Find Some Film on Big Jesse He's a FIT

Projected Levels: D2 JUCO / NCAA D3+

6'3 Playmaker 2026 Payton Sawyer | Abilene High **325-370-2567**

Strong Physical Tweener that is a Deceptive Athlete, Finishes Above The Rim In The Paint, and has all the Physical Tools and Talent You Look for In Potential Recruits. Moving Forward, Payton Must Show Sustained Effort for Longer Stretches And He Could Be a Big Time Sleeper That Puts Up Big Numbers This Year At Abilene High. When Engaged He Looks Like a Scholarship Level Wing and D1 Level Athlete. The Talent is There and the Ball is in his Court To End Up With Options at the End of the Season Once He Realizes How Good He Can Truly Be! Had Moments Throughout The Camp, But When The 'Top Prospect' Title Game Tipped Off You Could See How Good This Kid Truly Is! That's When He Went All In And Looked Like One of the Best if Not the Best Player on the Floor. Don't Wait Payton for good things to happen, make them happen and your Goal of Playing College Bal will become a Reality...

Projected Levels: JUCO / NCAA D3+ (Could Move Onto NAIA/D2 Boards If He Plays To His Maximum Potential)

6'3 2 Guard 2026 Javari Beck | Odessa Permian **432-308-3200**

Versatile Guard That Finishes In Transition, Excels In the Open Court When the Game Speeds Up and Does a Great Job at Changing Speeds In the HC To Get By The First Line Defender And Make Plays off the Bounce. Moving Forward, Javari Being a Senior Must Stay and Play in Attack Mode On Both Ends of the Floor Cause the Talent & Athleticism Is there To Make a Much Bigger Impact this Year. Right Now Takes Possessions Off or Defers When He Has Opportunities to Make a Play Whether It Be on Offense or Defense. Has Everything You Look for In College Level Defenders and is Tough To Stop When Getting Downhill On Offense, Now Turn It Up a Notch for Longer Stretches Vari and Big Things Are Ahead. 2026 Sleeper To Track This Season In an Under Recruited West TX Region, could be a Late Steal for Programs that Do Their Research Early!

Projected Levels: D2 JUCO / NAIA

6'3 Playmaker 2026 Mike Jenkins | Leander Rouse 706-564-7125

Long Athletic Playmaker That Does a Great Job of Moving without the Ball and Shoots a High % In Catch and Shoot Situations. Versatile on Defense as well with the Length and Size to Guard the 1-3 on D! If You Switch Perimeter Screens and Run an Open 4 out 1 In or 5 Out Offense He's One To Watch In 2025-2026. Right Now His College Ready Strengths Are Knocking Down Shots, and His On Ball Defensive Pressure. Mike is Flying under the radar due to Moving to TX Recently with his father being in the Military. Sleeper Set to Do Big Things this Year at Rouse

Projected Levels: NCAA D3+ / NAIA

6'8 Small Forward 2026 Nick McLean | Winston Salem Christian

Nick has things you can't teach, and a high ceiling heading into his final Season at a Prep in North Carolina. Has the Size, Skill Set, and Soft Touch in the Paint to go along with the ability to run the floor and finish plays at the Rim in Transition. Must Physically get Stronger and Stay in Attack Mode On Both Ends to Secure The Highest Potential Offer, but the foundation is there and was very receptive to Coaching and Instruction which is a good indicator that his Game will continue to Grow. Intriguing big man with a big upside and time on his side to Increase his Recruitment and Level of Recruitment his Sr Season. Could Use 2 Years at a JC to Secure His Highest Potential Offer But Nonetheless One To Get on Your Radar. Early Lead on a Big Man in the Class of 2026

Projected Levels: D1 JUCO / NCAA D2

6'3 Combo Guard 2026 Mason Lopez | PSJA North 956-534-5567

This Was Mason's 2nd Summer Camp & Both Times He Won his Way to the 'Top' and Won Me Over. Has The Size and Shot that Translate To the Next Level, Moves Well Without the Ball To Get To His Spots, and Knocks Down a High % of Shots in Catch and Shoot Situations. He Showed in Both Camps The Offensive Skill Set It Takes To Play College Ball, but in this Camp he Showcased His Motor and Was More Engaged Defensively and Looked like a Whole Different Player In the Austin Camp. His Game has Grown without the Ball in his hands in a Short Period of Time, which Indicates Mason Playing at a High Level by the Time District Play Kicks Off. South TX Sleeper that will end up on a College Roster when it's all said and done.

Levels: NCAA D3+ / NAIA

6'5 Small Forward 2026 Marshall Hicks | SA Antonian Prep **210-324-1718**

When Big Marshall Embraces How Tough He is to Stop When he's Battling in the Paint and Posting Up, He will not only start Gaining More Interest he will start to Dominate Games. High Academic Forward with Good Hands, solid footwork after he catches it, and scores it at a high % in the Paint. Marshall Soaks up Coaching, Excels in the Classroom, and is a Physically Strong Big Bodied Tweener That Just Needs To Embrace Playing Bigger Than 6'5. Don't Let Defenders off the hook big fella trying to Showcase Guard Skills, Play to Your Strengths and Make Them Double You Down Low or Make Them Pay with Your Skill Set Around the Basket. Love His Approach After Camps seeking out Input from Coaches on Staff on Areas he Must Improve, and When He Is Playing Big He is a Load. One To Track This Season on a Very Good Antonian Team Set to Make Another Deep Playoff Run.

Projected Levels: NCAA D3+ / NAIA (High Academic Programs Get Marshall On Your Radar)

6'3 Playmaker 2026 Austin Greene | Fredericksburg HS **830-733-2976**

Listed as a 2 Guard, but more of a Playmaker that Can Play Multiple Positions on Offense and Defend the 2-4 on Defense with his Strength and Hard Hat Approach! Austin is just an old school, gritty, competitive Guard that Makes a Lot of Winning Plays That May Not Show up on Stat Sheets but 100% makes your Team Better. What Stood out the Most was his Ability to Rebound the Ball and How Hard he Competed on the Glass From Start To Finish. I Always Tell Players Be Elite In One or Two Facets of the Game When Shots Don't Fall, and Austin is an Elite Rebounder. Led his Team to the Defensive Stops Challenge and Winning Ways Tournament By Getting Every Loose Ball, and Getting Dozens of 2nd Shots by Relentlessly Pursuing Offensive Rebounds. Shoots It Well, Strong Built Guard, and Scholarship Level Rebounder Set to Have a Breakthrough Sr Season. Early Lead on an Underrated Player that is Flying under the Radar.

Projected Levels: NCAA D3+ / NAIA

Moving Forward, Sebastian Being a Senior Must Stay and Play in Attack Mode On Both Ends of the Floor Cause the Talent is There To Make a Bigger Impact. Right Now Takes Possessions Off or Defers When He Has Opportunities to Make a Play Whether It Be on Offense or Defense. He Has Everything You Look for In College Level Defenders, and is Tough To Guard When He Is In Attack Mode on Offense. It's a big Year for Sebastian To Start Drawing Genuine Interest from Scholarship Levels, and being a Sr He will be in Position to Lead Cy Park this Season. Don't Wait for Good Things To Happen, Make Them Happen Sebastian And Interest will Turn to Offers...

Versatile 6'4 Wing That Finishes In Transition, Excels In the Open Court When the Game Speeds Up and Does a Great Job Securing Offensive Rebounds & Getting His Team 2nd Shot Opportunities. Just Has That Look of a D1 Level Forward With His Upside, Size, Skill Set and Physical Talent. Moving Forward, He Must Learn To Play and Stay In Attack Mode On Both Ends To Stand Out More And Secure His Highest Potential Offer (D1) But Has Time on His Side and The Right Approach When Corrected. Really Intriguing Big That D2's Should Already Be Recruiting and D1's Should Add To Their List of Prospects to Watch in the 2027 Class **Projected Levels: NCAA D2+ / LM-MM Potential**

6'6 Small Forward 2027 Shae McCarty | SA Antonian Prep

It Took Shae A Few Hours To Adjust To The Camp Setting, But Once He Did He Looked Like The Best Player In The Gym. He Had a Breakthrough Moment In the 3 on 3 Portion Designed To Test Your 'Will To Win' and Took Over That Segment Leading His Team To the Title. That's When I Saw What Shae Truly Can Do and the Level He is Capable of Playing At Moving Forward. Already a Talented Offensive Prospect at 6'6 But If He Does What He Did In the 3 on 3 Games at TABC and the Late Live Periods His Recruitment and Level of Recruitment Will Increase Heading Into His Junior Season. Another 2027 That Has Plenty of Time To Play His Way Into a Scholarship Level Offer.

Projected Levels: D1 JUCO / NCAA D2+

5'11 Point Guard 2028 Jayden Smith | SA Sotomayor

Jayden is a Pure PG That Plays With Great Pace, Sees The Floor Well When Drawing Help, and Has Leadership Traits You Look For In PG's at the Next Level. He Just Needs Time To Physically Get Stronger and He Has Time Being a 2028, but He Will Play a Key Role for Sotomayor this Year After Several Seniors Graduated. His Best Ball is Clearly In Front of Him, and I Really Liked The Way He Ran a Team and Didn't Get Sped Up By Pressure Being So Young. Future Prospect In the San Antonio Area That Will Turn Some Heads By The Time District Rolls Around.

Projected Levels: (Too Much Time To Grow His Game To Project Levels but is Set to Have a Breakthrough Season at Sotomayor)

Was Consistent With His Effort on the Glass Pursuing Boards and Getting a Lot of 2nd Shot Opportunities for His Team or Put Backs. Sprints His Lanes In Transition That Led To Easy Layups, and Has a Solid Mid-Range Game. Doesn't Have a True Position, But being a 2028 He's Got Plenty of Time To Develop His Overall Offensive Skill Set and Heading Into The New HS Season. For Now, He Makes Enough Winning Plays, Has a High Motor, and Has The Size and Upside That Got The Attention of Every Coach on Staff at the Camp. Keep Working On Your Game When No One Is Watching Brandon and Big Things Are Ahead

Projected Levels: (Too Much Time To Improve In All Facets. He Made The Report Due To Every Coach Getting a Close Look at How Hard He Competes and How He Makes Winning Plays Without the Ball In His Hands)

6'6 Small Forward 2028 Eden Owne | SA Antonian Prep

Legit 6' 6, Runs the Floor Like a Guard, Scholarship Level Athlete that Finishes Above The Rim In Transition, and Has Tools You Can't Teach and Physical Talent To Play at the D1 Level If He Puts In D1 Level Commitment Over the Next Few Years. He's Putting In The Work as Every Time I Get a Chance To Evaluate Him, He's Progressed Now Embrace What It Takes To Truly Lead a Team Tim Jr and Everything Will Take Care Of Itself. 2027 Set to Have a Breakthrough Season as the Lead Guard on a Very Good SA Johnson Program

Projected Levels: NAIA / NCAA D2

6'1 Combo Guard 2027 Emiliano 'Mookie' Henderson | East Central HS 361-728-9838

Mookie is College Ready Strong, Is at His Best Getting Downhill and Finishing Plays Through Contact In the Paint, and Started To Truly Stand Out When We Got To The Game Portion With How He Attacked The Paint and Made the Right Play. Moving Forward, He Must Continue To Work On His Perimeter Shot To Keep The Defense Honest and Open Up More Driving Lanes, but Has Time on His Side and Good Shot Mechanics So That Will Only Get Better. Right Now, He Brings Consistent Defensive Effort and College Level Playmaking To The Table Which Moved Him Into the Top '10' Prospects at the SA Camp.

Moving Forward, He Must Learn To Play and Stay In Attack Mode On Both Ends To Stand Out More And Secure His Highest Potential Offer (D1) But Has Time on His Side and The Right Approach When Corrected. Really Intriguing Big That D2's Should Already Be Recruiting and D1's Should Add To Their List of Prospects to Watch in the 2027 Class
Projected Levels: NCAA D2+ / LM-MM Potential

6'6 Small Forward 2027 Shae McCarty | SA Antonian Prep

It Took Shae A Few Hours To Adjust To The Camp Setting, But Once He Did He Looked Like The Best Player In The Gym. Projected Levels: D1 JUCO / NCAA D2+

5'6 Point Guard 2028 Cano Tuttle | Lubbock Cooper 806-999-4487

A Resource of Mine Told Me About This Little Guard In The Panhandle That Doesn't Back Down From Anyone and Brings his Best Against The Best! Well Thank God Cano Accepted His Invite and Made it Down To Abilene for the West TX Camp. Talk About a Player Who Controls What He Can and You're Talking about Cano! He's No Question Undersized at the Stage of his Career and Needs to Get Physically Stronger, But He Has Plenty of Time To Sprout Up and Fill Out Over the Next 3 Years. What He Brings Right Now Is Relentless Effort, Fearless Play, and If You Lose Him on Defense He Will Make You Pay as he's a Knock Down Shooter With Range. Every Single Coach In Attendance and on Staff Loved This Kid and His Approach & He Has Game. I asked Cano after the Camp "Do You Know Who Bobby Hurley Is?" and being a Youngster he Said No Sir! Find Some Film And Don't Worry About Getting Taller, Just Grow Your Approach...

Projected Levels: N/A (To Much Time To Grow His Game)

5'10 Combo Guard 2027 Cason Cook | 2027 Azle HS 214-478-5954

Cason is the Latter and Can Flat Out Play. A bit Undersized so needs to get Stronger but another Player that Took Advantage of the Uncommon Camp Setting and Had a Very Solid Showing Against Some of the Top Guards In the Class of 2026 That Will Be Playing College Ball. Niah Was on the Winning Side of the Ball Throughout The Camp Both In Session One (1 on 1 to 3 on 3 College Level Competitions) And Nothing Changed In Session Two (Games) As He Was One of the Guards That Won The Day and Finished on 'Top' By Making Some Big Plays In the Top Prospect Title Game To Seal The WIN. Solid Small College Prospect Playing at a Private School In Abilene So Will Be Flying Under The Radar. Great Invite to Your Elite Camp In the Fall So You Can Get a Better Look At Niah Vs Higher Level Comp. Bryson Does a Great Job of not Getting Sped Up, Handles Pressure, and Takes What The Defense Gives Him in Transition and in the HC. When the Game Speeds Up, Bryson is at his Best with his Speed, court vision and Playmaking ability. Just Keep Putting in the Work Young Fella When No One is Watching as You have a Bright Future. Coming off a Freshmen Season Where He Was Nominated Newcomer of the Year in a Tough District, The Key for Bryson Will Be Staying Forward and Focused on the Daily Process it Takes to Go from Good To Great. 6'1 Point Guard 2028 Cooper Carrano | Lake Travis 512-809-9411

Strong Combo Guard Who Took Advantage of the Small Group Setting Designed To Discover College Level Talent, and Won The Day By Competing from Start to Finish. Cooper Was the Only 2028 To Finish on 'Top' and as the Camp Got Tougher Coop Got Tougher. Being Home Schooled His Freshman Season, and Not Playing on one of the More Known Select Programs Cooper Heads Into His Sophomore Year Flying Under The Radar. That Will Change As He Makes The Transition To One of the Top Programs In CTX Year End and Year Out (Lake Travis) I've Got a Feeling after Evaluating Cooper in the Austin Camp, that he has no desire to wait his turn and Will Play His Way Into a Big Role this Upcoming Season at LT. Tough Minded Combo Set to have a Breakthrough Season!

Stay Engaged Defensively Especially When Guarding The Ball, As You have the Length and Size to Be a Scholarship Defender Which Will Double Your Looks Moving Forward. Nonetheless, the Foundation is There To Play Beyond HS and Cason Got Better and Better as the Camp Went On. Keep Working On Your 3pt Shot To Open Up More Driving Opportunities, and Buy Into Being The Best On Ball Defender On the Floor This Season at Jersey Village and Your Stock Will Continue To Rise. 2027 To Get On Your Radar This Year...

Zavian Showed in his 2nd Camp The Same Thing He Did in the First Camp, and that is he can put points on the Board in a Variety of Ways and Does a Great Job Getting Downhill and Creating Shots for himself or for a Teammate. Moving Forward Zavian Must Elevate his Game on the Glass and on the Defensive End to Truly Start Gaining College Level Interest. Had Moments in the Camp Where He Mixed it Up on the Glass and Really Locked in on D and that's when he Looked Like a Scholarship Level Wing. His Stock could Rise and Rise Quickly by Making More Winning Plays Without The Ball In His Hands, and Staying Active on the Glass from the Guard Position. Stay Focused on the Daily Process and Making Progress in All Facets and You Will Head Into the Spring on a lot more College Coaches Radars. 2027 to Get on Early and Get To Your Elite Camp So You Can Take a Closer Look at Zavian Heading into the Season

5'10 Point Guard 2027 Miles Hardeman | Pflugerville Weiss HS 512-632-8182

One of the Better Pass 1st PG's in the Camp was Miles Hardeman. Has Excellent Court Vision, Makes Good Decisions When he Draws 2nd Line Defenders and does a great job of making others better by putting them in position to score. Capable Scorer and has Good Shot Mechanics on his Perimeter Shot, but his College Ready Strength is his ability to Pass the Ball and Court Savvy he brings to the Court as the Lead Guard. Not a lot of flash, Just Produces, Plays with Great Pace and Makes the Right Play when he gets in the Paint. Programs Looking for a Pure Pass 1st PG In the 2027 Class add Miles to Your List of Recruits To Watch this Season

Adonis is a Consistent Jump Shot Away of Moving Onto Higher Level Boards (D2+ / LM) Having said that, He has 2 Years to Improve His Perimeter Shot and Overall Skill Set but the foundation is there with plenty of time on his side to Elevate his Game in those Areas. On the flip side, he has a College Ready Body, D1 Level Athlete, and Tough to Stop in the Open Court when he gets Downhill. Finished Through Contact in Transition, Plays Above the Rim and is an Active Rebounder from the Guard Position.
