

UCExposure Prospect Evaluation | Hudson McNatt Position | 6'2 Combo Guard

Date: May 2nd,, 2023

Evaluator: Coach V (21 years of experience Recruiting Coordinator at the D1, D2, D3 & NAIA Levels)

Secondary Evaluator: Coach Kite (Former D1 player & GA, D3 Assistant Coach, Current NBA Video Coordinator)
The Prospect Evaluation is the first step in creating a Recruiting Game Plan tailored to the Individual

Classification/High School | 2025 Sabine

Projected Level of Recruitment | NCAA D3

Potential level of Play | Still too much time to grow into your highest potential level with UCExposure. Not at a point where we must target a fit or level of play.

Player Assessment/Evaluation: Solid young prospect, but way too early to tell his projected level or potential to play college basketball. Has a good foundation to build off of, time on his side, and a good feel for the game that he can move onto college boards next year by following his growth plan. Has a good basketball frame, nice length for a guard at his age, and will only get stronger when he decides to get serious about adding a consistent routine in the weight room. On the court his offensive strengths that stand out are his ability to shoot the 3 at a high % and can score it off the bounce from mid-range. When pressured hard, he gets exposed as he must tighten up his handle vs pressure and

be able to create plays for himself by getting to the basket or making the right decision when drawing a 2nd defender. Must show the ability at his size to be a playmaker by next season, and create more plays for himself and teammates to move onto college radars. Active defensively but not disciplined yet. Plays with good energy but still learning how to play on the defensive end. Really take time to evaluate some game films and look at your off ball positioning, close-outs, and on ball D. Playing hard and being effective on the defensive end are two different things. Add angles, don't give up straight line drives, and keep yourself in the right position when your man doesn't have the ball to go along with your effort and you will start to see a difference in your performance.

Game Films to upload to Hudson's UC Player Card: Initial Games that will showcase your strengths are 14+ points (2 for 3 from 3pt line), 10 paint touches where you are making plays off the bounce whether you pass or shoot it, and your most effective games where you were engaged on the defensive end and effective. Your effort is good at this stage being a 2025 now you want to grow that and add discipline on the defensive end.

The Recruiting Game Plan to 'Gain Interest' this Summer heading into your Junior Season.

Strengths to Showcase | Catch and shoot 3, 1-2 dribble mid range pull ups, effort plays on defense. Your effort and 3pt shot making are 2 areas that stand out on film (Continue to grow your game in all facets)

Areas exposed on Game Film | Creating for others, playmaking off the bounce, finishing through contact, and defensive discipline. The foundation is there due to the fact that you are active and play with energy. Now we want to focus on you standing out on Defense for being a very effective defender not an all or nothing prospect on D by the end of Summer.

College Ready Strengths that stand out when sharing Hudson's UCPlayer Card to College Coaches | High energy player, 3pt shot making off the move or off the catch are shots that translate to the next level.

Summer Game Plan | Targeting a FIT

- Based on professional insight from a experienced recruiting coordinator or current college coach, our formula is proven when it comes to matching players with a FIT
 - **Offensive fit** | Motion-base, allow him freedom of movement to score off the ball and score off drive and kicks from others
 - **Defensive fit** | Uptempo, pressure defense that plays in the gaps and tries to turn defense into offense. Too early to truly target fits or levels but we have a starting point now that we can build off of.

UC Recruiting Game Plans provide insight from a college coaches lens to guide 'Top Prospects' on game films to upload, areas they must improve, and what to showcase on their UC Recruits Player Cards as we promote prospects to college programs over the Select Basketball Season. . Beginning in May we want to share your best games to college programs at the right levels throughout the Summer until we secure the highest potential Offer. ***The Uncommon Approach promotes prospects as they continue to progress to College Programs at targeted levels.***

What to Highlight | Creating your UC Highlight Video : (1:30 Max | 20-25 Clips) **15-20 Clips Showcasing College Ready Strengths on Offense:** 3 point shot making (No stand still 3's on highlights - 2 max) make them off the move, off the catch, or coming off screens. Mix in 5 mid-range pull ups when run off the line.

5-10 Position Specific Winning Plays that stand out to College Recruiters: Off ball defensive plays. Any deflections, steals, charges, when you are on help D need to be added after every 4th offensive clip.

Hudson McNatt Summer Recruiting Game Plan | 2023-2024 Season

We want to go into May with a very specific plan to target fits, identify locations you will and will not go, and focus on those levels that give you the best odds of playing college basketball. We only share game films in the late Live Period that will stand

out to college coaches at targeted levels to move your name up College Coaches boards and not off of them. Hudson's Recruiting Game Plan: **#1** Get serious this summer in the weight room. Get a routine and track your progress to ensure your getting stronger (Must be able mentally and physically to handle pressure next year and finish in traffic when drawing contact) **#2.** Don't get caught up in exposure or speeding up your recruitment, get focused on the process of reaching your highest potential. Summer is the best time to grow your game. Stay dedicated to working on all facets of your game when training and make them game speed, game shots, from game spots sessions (55 minutes - Higher Intensity) **#3** Make it a point to become a true 2-Way Player before next season. You are ahead of peers with your effort and energy, but behind with your discipline. Study some game film before the summer season gets heated up, and be your own worst critic on giving up straight line drives or missed opportunities by being out of position on help D.
